Weanling Survey Radiographs - Book Now

Survey Radiographs - \$770 including GST

The importance of survey radiographs in the management of yearling production is well established and cannot be overemphasized. Our dedicated team approach will ensure that the best quality radiographs are obtained promptly and safely with minimal disruption to on-farm operations.

Our experience with interpretation of weanling / yearling radiographs is second to none and you will be provided with a written report of radiographic findings and our recommendations for management.

The importance of the right decision when assessing lesions in horses of this age is paramount, to not only ensure appropriate treatment is undertaken, but that inappropriate treatment and expenses are not incurred.

We are locally based and can provide prompt follow-up advice and clinical examinations when necessary.

Reporting is clear, concise and confidential. We welcome detailed discussion of each case to provide our clients with the best possible service.

Please contact our Radiology Department to make your booking or discuss our services in more detail.
